US Short and long-term rental solutions

beMatrix[®]
making live communication **easier**

Your beMatrix® rental solution within reach

Do you want each of your projects to be unique and outstanding with a minimal investment? Are you interested in growing your business without paying to ship beMatrix frames unnecessarily? How about designing experiences for your clients without being limited by your stock? BeMatrix's Global Rental Network is your answer.

Our beMatrix Global Rental Network offers a large variety of beMatrix frames, Xtreme Solutions and other beMatrix products to support you. Both domestic and international orders can be placed, filled and delivered quickly, so there is no reason not to participate.

Short or long-term rental solutions

Our USA Rental Solutions offer you two renting options that allow you to allocate the cost of your beMatrix frames for specific projects.

Short-term rentals are on a **1 month term** renewed in 1 month increments, and allows you to rent frames for a single project or supplement your frame stock for large or complex projects.

The long-term rental program is a **minimum of 6 months** giving you minimum upfront costs, design reusability and savings on shipping. You can purchase your inventory at the end of your rental term at a discounted rate if you choose.
